RESEARCH & WRITING:

- Planned and wrote news/analysis articles at the *NewsHour with Jim Lehrer* for online publication.
- Completed two complementary half-year theses (at Bates College) of original conception in Political Philosophy and International Relations. The end result conjoins the contemporary theories of quantum physics with traditional assumptions of power analysis to shape a new process-driven theory of state interaction.
- Wrote, edited and oversaw letter writings to members of the US military, Congress, and the Maine constituency as a Congressional intern. Formulated grant proposals for local economic initiatives, and in one instance, wrote a speech welcoming a battalion of troops back from Iraq.
- Conducted research and policy development for the purpose of national publication within the Roosevelt Institution.
- Have had extensive experience with Internet and computer-driven research. Well versed in Mac/PC platforms as well as all their respective word processing (Word, Excel, PowerPoint) and photo production (Adobe Suite) software.

PROJECT & MANAGEMENT SKILLS:

- Managed daily online production of the *NewsHour's* website responsible for story headlines, blurbs, transcript publication, video encoding (for online production) archive updates and sound production.
- Coordinated the Bates College branch of the Roosevelt Institution in order to produce working policy centers around highly salient policy issues. Conducted research and policy development for of national publication.
- Worked closely with the Senator Collins' regional staff in addressing community problems, representing the Senator in local events and facilitating the approval of the Senator's policy initiatives throughout the region.
- Successfully created and implemented an extensive sailing program for sixty novice campers ages 10-12.

EMPLOYMENT:

- **Extreme Services & Supplies, Inc**, Atlanta, GA
